Applicants' Preliminary Amendment, filed on July 22, 2004, has been made of record. In this amendment, claims 1-38 have been canceled; and new claims 39-75 have been added.

Claims 39-75 remain pending in this application.

***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Applicants' Priority Document was filed on January 19, 2005.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 39-66 and 71-75, drawn to processes for preparing a catalyst, classified in class 502, subclass 330.
  - II. Claims 67-70, drawn to a process for the purification of a waste stream, classified in class 423, subclass 351.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions, modes of operation, and functions.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Leonard Mitchard on March 1, 2005, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicants' Counsel requested that the restriction requirement be mailed.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
